Minneapolis 2007

Environmentally Responsible Exhibition Check List

Booth

- ❑ Display constructed of post-consumer content (minimum recommended 20%)
- ❑ Display reuse
- ❑ Minimize materials with harmful extended life cycles (e.g. vinyl)
- ❑ Minimize the use of energy in exhibitor booth (e.g. energy efficient lighting, unplugging appliances when they are not in use).

Shipping and Booth Transportation

- ❑ Minimize shipping (e.g. bulk shipping)
- ❑ Use a carrier that minimizes the environmental impact of shipping (e.g. fuel efficiency or use of natural fuel)
- ❑ Use reusable, biodegradable, or rapidly renewable shipping materials

Distribution Materials

- ❑ Minimize materials for distribution
- ❑ Distributed materials made of post-consumer materials and are recyclable.
- ❑ Printed material is on recycled paper and with vegetable inks.
- ❑ Retrieve all undistributed material for reuse at a later date.
